# TT220801 – OFXL - Switching License

1. To use OPEN FXL 4 with your dongle license, you have to switch the licensing model from hardware dongle (which you're using with FUP 2) to the new software license. We will show you how to do it in this document. The same software license also works with OPENweb 11.

2. First go to the website https://www.deos-ag.com/en/new-licensing-model/, and fill in the following information

3. Please note that each e-mail address can only register one hardware dongle. Also, each hardware dongle can only register once. You can find the dongle serial number on the sticker attached to the dongle.

4. If the sticker is lost, you can also find it in FUP. Click the "?" from the menu and click on "License information" and you can see it.

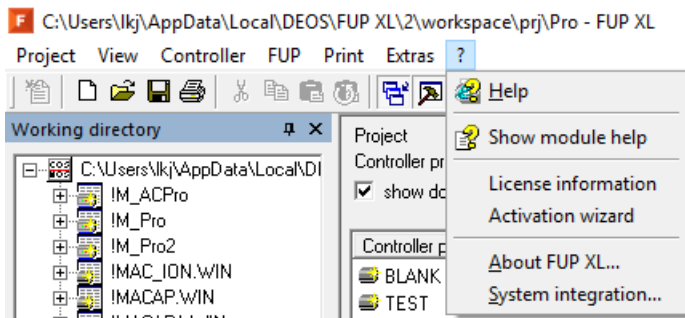

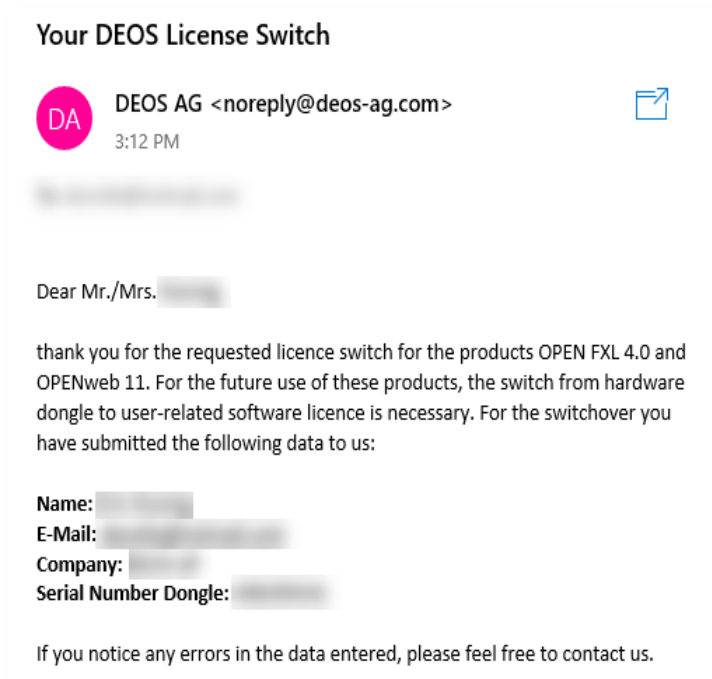

5. Tick the agreement and click "Switch Licensing Model" after entering the information.

6. You will then receive the following e-mail to confirm the request of the license switch. If you don't get the e-mail, or you enter some wrong information, please contact your DEOS representative. **Note:** please also check the Junk e-mail in your e-mail if you can't find it in your inbox.

7. After we confirmed the information is correct, we will send you another e-mail so that you can got the link to register and activate the new license. **Note:** please note that the link in the e-mail is only valid for 48 hours, so please check your e-mail regularly.
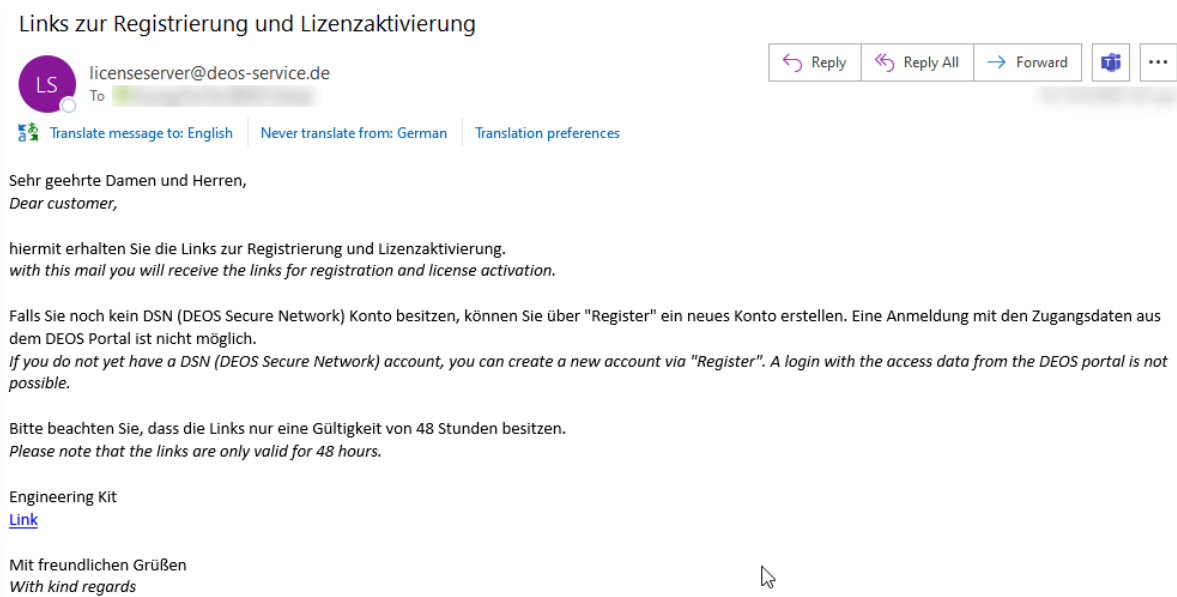

8. The application may take some time for the processing. So, if you don't get the e-mail after a few days, please contact your DEOS representative. **Note:** please also check the Junk e-mail in your e-mail if you can't find it in your inbox.
9. Click the link in your e-mail and you will see the following. Click "Register" at the bottom (next to "New user?" to register for a new account.

10. You don't need to register for a new account if you already have access to the following.
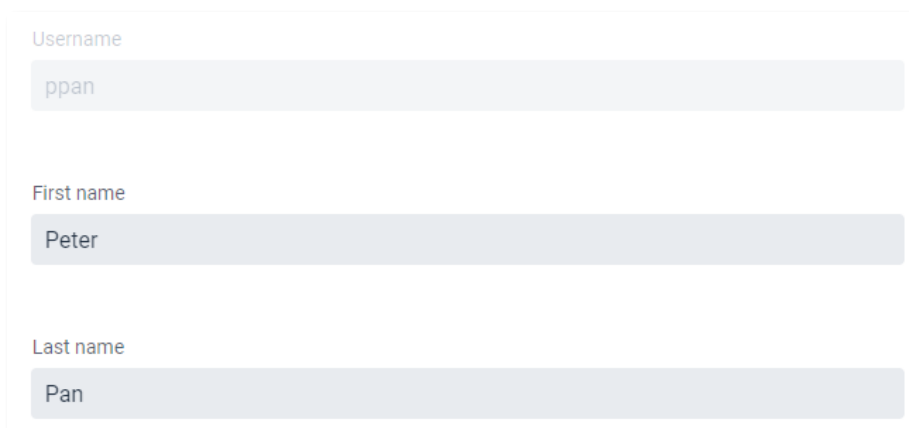

11. Fill in the information to register for a new account.

12. The "User name" is generated automatically after you enter your "First name" and "Last name".
    Note: Please note down your user name for later login.

13. Confirm the "privacy policy" and click the "Register" button, and you should see the following message.

14. You should also get the following e-mail immediately (please check Junk mail if not). You need to click the link to verify the e-mail address with 15 minutes and to activate your account.
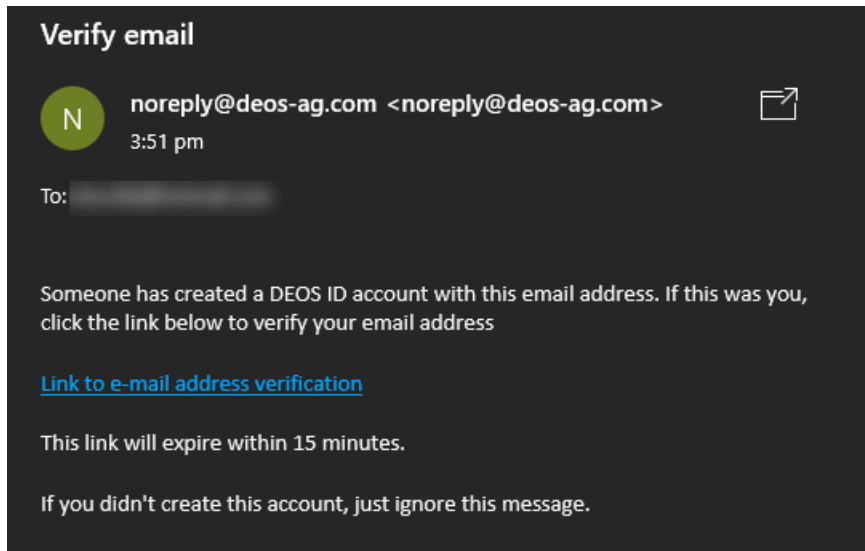

15. You should see this when you click the link. Otherwise, you can login with your user name and password.
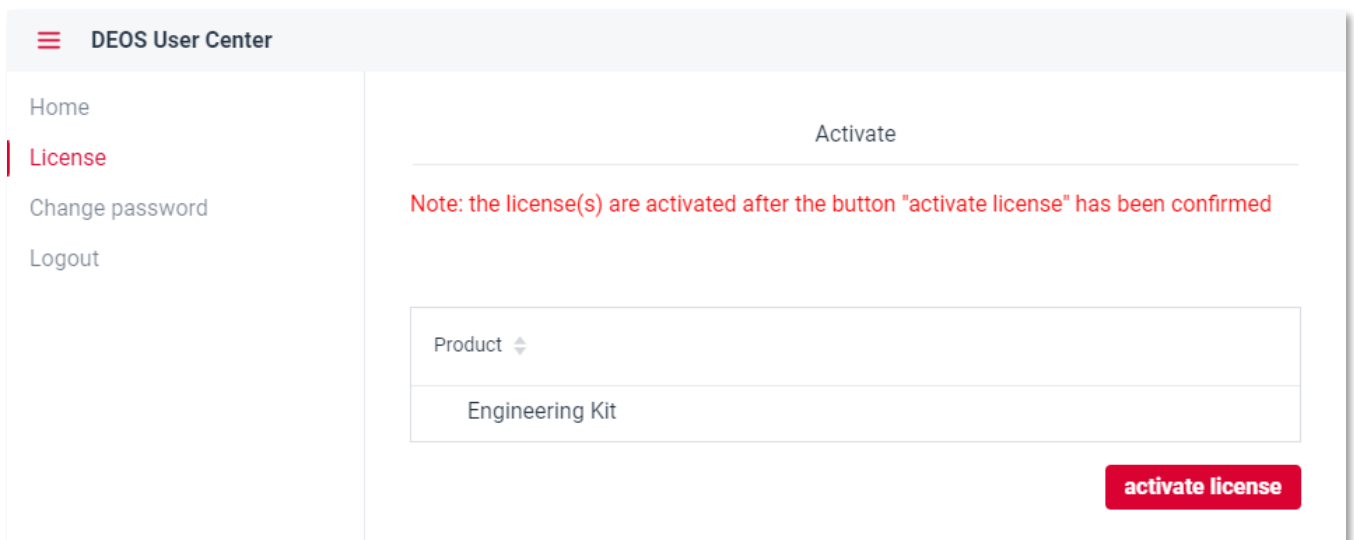

16. Click the "activate license" button (above) to activate the license. It's done! You can now use OPEN FXL 4 and OPENweb 11 with your new software license.
